- **Business and civic experience::** As I've progressed in my career and personal endeavors I'm continually inspired by strong, intelligent women and the amazing things they can accomplish. At the same time, I'm bothered by the inequalities I see in regards to wages and the lack of education and opportunities for women in our community. I believe it is our responsibility as a prominent city and county to ensure that everyone has the opportunity to reach their potential and lead a well-balanced life. I believe this is best achieved through providing education and guidance that allows women to take leadership roles and have a voice in their community and I would welcome the opportunity to serve on The Women's Advisory Board to assist in closing these inequalities. I think it's vitally important to get my generation involved in civic roles and providing input into the development of Mecklenburg. I'm a native North Carolinian from Hickory and take pride in calling Charlotte my home for the past eight years. I'm in my eighth year as a CPA in public practice. I currently work primarily with several Charlotte based not for profits and privately held businesses. I have experience in the manufacturing, distributing, real estate, construction and professional services industries. I serve primarily as a financial statement auditor and have experience in taxation, compliance audits, general accounting assistance and consulting. I've taught a class "Accounting for the Non-Accountant" at The Employers Association. I'm involved with Tri it for Life, a not for profit women's triathlon group whose mission is to inspire women of all ages, sizes, backgrounds and abilities to develop healthy lifestyles through multi-sport training,

mentorship and commitment. I have volunteered and fostered with Charlotte Mecklenburg Animal Care and Control, Charlotte Humane Society and other animal rescue groups. I've assisted in fundraising and advocacy for Teens Taking Action, a peer education group.

- **Areas of expertise and interests/skills:** I have a solid background in finance and accounting and understand the need to balance spending with meeting citizens' needs. My role as an auditor has honed my skills in working with people from various backgrounds to reach common goals in an efficient manner. I have event organization and fundraising experience. My hobbies include running, swimming, biking, exploring Charlotte's greenways and parks with dogs in tow and discussing current novels with my book club.

My interest is in helping the public understand how many dollars we can save in services by helping and providers provide optimal learning environments for our babies. I want to help our community understand that a well trained, informed, and involved teacher (as well as the converse) has the power to help make or break a child's academic career before it even begins. This will also help save money when it comes to offering services that target behavioral issues in children as well. I can help build my community by investing my time and energy in the future, our children.
