

Child Care Subsidy: Expanded Eligibility for Working Families

Robert Nesbit

Chief of Staff, Consolidated Human Services Agency

4/19/22

The Need for Expanded Access to Child Care Subsidy

- Affordable child care helps create opportunities for economic mobility
- Restricted access to affordable child care contributes to a cycle of poverty

BOCC Priorities

Addresses key Mecklenburg County Board Priorities:

- Reduce Racial Disparities
- Reduce Education Attainment Gaps
- Improve Workforce Development

Barriers to Affordable Child Care

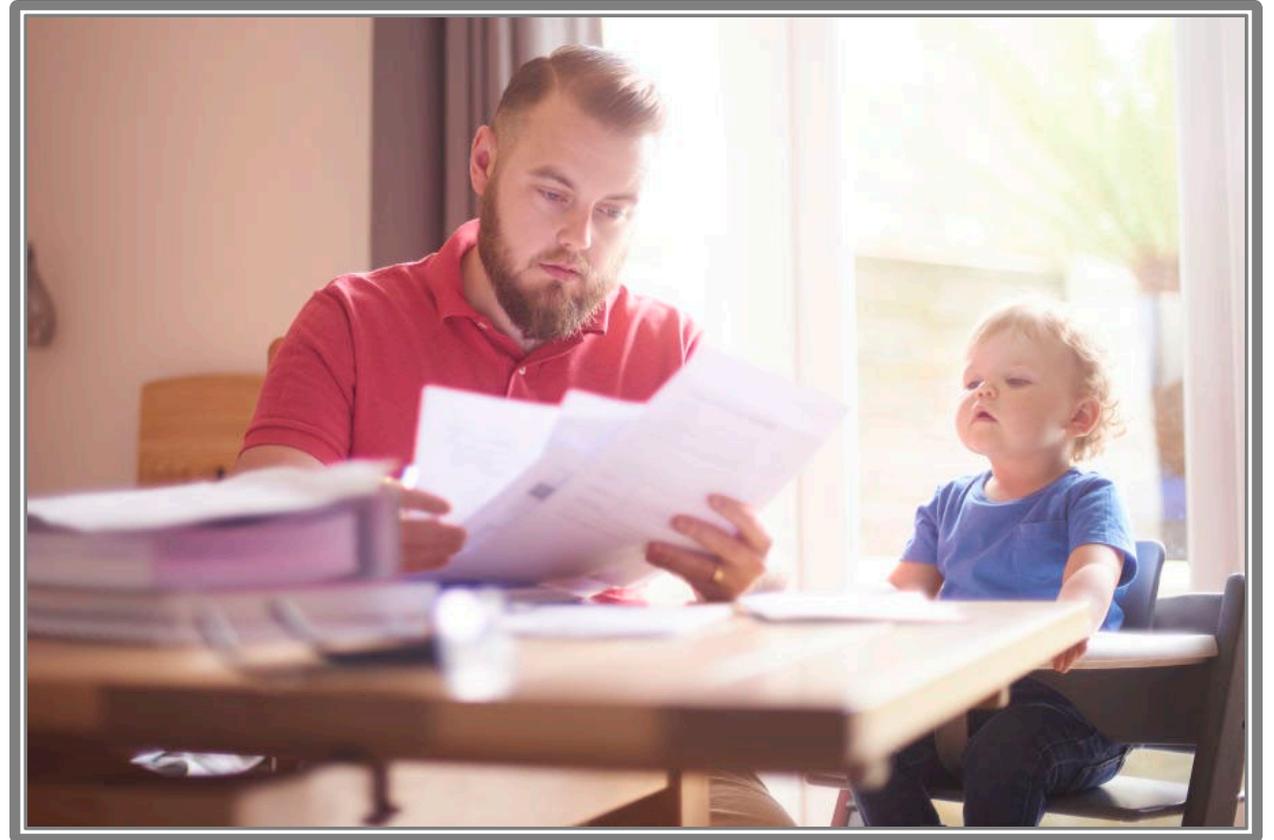

Barrier 1: Eligibility Cliff

Earnings above the State income eligibility threshold, prevent households from qualifying for child care subsidy:*

Birth to age 5: \$43,920
(200% FPL)

Age 5-12: \$29,208
(133% FPL)

*Income limits are for a family of three

Household Example 1

- Mom with two children, ages 3 and 10
- Earnings: \$44,000

Monthly Budget	
After-Tax Pay	\$2,940
Expenses:	
Rent	\$1,500
Child Care	\$1,000
Additional HH Expenses	\$1,400
Shortfall of Funds	-\$960

Barrier 2: Benefits Cliff

Loss of public benefits when career advancement places a household over the income eligibility threshold for public assistance

NC Child Care Subsidy Benefits Cliff:

- **85%** of State Median Income
- **\$57,648** for a family of three

Household Example 2

- Mom with two children, ages 3 and 10
- Earnings: \$58,000

<i>Monthly Budget</i>	<i>With Subsidy</i>	<i>Without Subsidy</i>
<i>After-Tax Pay</i>	\$3,777	\$3,777
Expenses:		
Rent	\$1,500	\$1,500
<u>Child Care</u>	<u>\$483</u>	<u>\$1,000</u>
Additional HH Expenses	\$1,400	\$1,400
Remaining Funds	\$394	-\$123

Barrier 3: Work/Education Hour Requirements

- Work/education requirement of 30 hours per week per NCDHHS policy
- Prohibits families with fewer work/education hours from accessing child care subsidy
- With subsidy, families could increase their employment or education opportunities

Household Example 3

- Father of two school-age children
- Laid off from work during the pandemic
- Found part-time work of 25 hours per week
- Can't afford afterschool child care that would enable him to work additional hours
- Doesn't qualify for child care subsidy because of the 30 hour per week work requirement

Basic Program Structure

Establish time-limited child care vouchers for up to two years

Increase income eligibility threshold to 300% FPL

Decrease work/education requirement for households <200% FPL (from 30 to 22 hours)

Referrals to workforce development providers

Family copayment: 10% of monthly gross household income

Budget

- An estimated minimum of 700 children ages birth to 12 will be served through this effort
- The projected cost for the initiative is \$10.5M
((\$5.25 in FY22 and \$5.25 in FY23))

Goals of Proposal

1

Increase access to child care subsidy

2

Create pathways for education, training and employment

3

Serve at least 700 children (birth to 12) across two years

4

Assess program impact
