Thank you! Meant to add that a performance raise is important too. I think employees need to work hard and earn their performance raises.

Best Regards,

Good morning,

I've been a county employee for almost 33 years. I remember the days were 100% of our monthly costs were \$0 (no out of pocket for employees) and a hospital stay was \$75 only because I went through the ER. I know those days are over, but I'm suggesting the County look at out of pocket expenses for county employees and do what you can to reduce them. I also would like to see a cost-of-living raise. While I am very grateful for our raises, it has not caught up to inflation. Thank you for the considerations and have a great day.

Please let me know if you have any questions.
