SECTION II.

A. PERMIT FEES

At the department's discretion, 25% of fees may be required at the time plans are submitted for review. The permit fee plus the plan review fee shall equal the fee calculated above; the permit fee can therefore be more or less than the above schedule, depending upon the fee paid when the plans were submitted for review.

Note: Effective July 1, 2010, on commercial projects only; the permit fee increased by 5% to support technology development. This increase will expire on June 30, 2014, unless extended by the Mecklenburg County Board of Commissioners. Funds from this increase will be held in a separate account in the Mecklenburg County Technology Fund and dedicated to Code Enforcement's development of technology supporting commercial projects.

Permit Fees

- **Total Construction Permit Value:** is the higher of (i) the construction permit value as determined by the owner or the owner's agent; or (ii) the construction permit value calculation made using the building valuation data being used by the Department at the time application is made for the permit. Construction permit value shall include all project costs, other than land, including all site and building improvement labor and materials, contractor fees and design professional fees.
- All equipment cost, including the owner provided equipment shall be included in "Total Construction Permit Value". For projects having individual pieces of equipment costing \$500,000.00 or more, the equipment cost will be included in the "Total Construction Permit Value" on the basis of an amount equal to \$500,000.00 plus 20% of equipment cost in excess of \$500,000.00.

Required Permits: At a minimum, a permit will be required for each Certificate of Occupancy (CO) issued space. At its discretion, the Department may require complex projects to be permitted in increments (footing/foundation, steel, shell, core, etc.) representing the method and cost of Department service. Construction permit value will be allocated *proportionately* to each permitted space or building component and must meet or exceed the construction permit value determined by use of the Building Valuation Data noted above.

Note: Permit fees shall be as determined by the following schedule, or as required by notes a, b, c, d, e, and f; whichever is greater.

Affordable housing projects calculate the construction permit value at \$52 per heated square foot and \$26 per unheated square foot.

Note f: There will be a \$2.00 technology charge on all permits issued to support and maintain current operational systems.

NOTE: Additional Zoning Fees may apply. See fee schedule.

1.1 **High-Rise Residential Construction Permitting Fee Option:**

At the Director’s discretion, the Department may offer a High-Rise Residential Construction Permitting Fee Option, available to all projects meeting the project eligibility definition listed below. The fee option will be publicized by the Department.

- **Other option requirements and limitations:**
 - The permit fee will be paid as a lump sum at project start, with unlimited permits issued thereafter, but not less than 1 permit for each CO issued space.
 - Applicant must select this option before the permits are issued.
 - If this option is not selected, projects will permit by the Total Construction Cost per Permit/Fees schedule listed above.

 - The Department's "high-rise residential construction cost of service per residential unit" shall be periodically evaluated and adjusted to reflect the Department's cost for plan review and inspections per residential unit, with calculations to be based on the average inspector or plan reviewer's annual compensation (respectively), divided by 1675 average available hours/year, times a Department overhead multiplier (plan review at 1.73, inspections at 1.81).

1.2 Mega Project Permit Fees

Any project defined as a "Mega Project" in the Building-Development Ordinance will incur a two-part permit fee charge.

Fee Schedule

The Mega Project permit fee will consist of the total of the following: Part 1) the fee schedule outlined in Part A) PERMIT FEES. Part 2) the project will pay for plan review services by the hour. See item B.6 of the LUESA Fee Ordinance.

For all renovations in which a NESHAP regulated quantity of RACM is to be stripped, removed, dislodged, cut, drilled, or similarly disturbed (including applicable NESHAP notification.) \$365.00

B. PLAN REVIEW FEES

Plan Review Fees are assessed when plans are submitted for permit issuance, resubmission of disapproved plans, "fast track" projects, and re-stamping of lost plans.

1a. Plan Review

Where the owner's representative schedules plan review time through the Department's OnSchedule program, and subsequently determines they will not use those hours, they must cancel the appointment no less than 5 workdays in advance. Should the owner's representative cancel less than 5 workdays before the appointment, fails to pass through Gatekeeping, or otherwise fails to submit drawings for the appointment as required, the owner will be charged for the scheduled unused review hours at the rate of \$145/hour per trade.

1b. Plan Review for OnSchedule Projects and Abandoned Plans

All OnSchedule projects, other than CTAC or Mega Projects, are required to pay full permit fees on or before permit application (that is, before commencing Plan Review) by either of the following methods.

- The owner holds an account with Mecklenburg County Code Enforcement, secured by a bond. The account will be charged the full permit fee amount at the time of permit application.
- Or, the owner will deliver payment in full for the full permit fee on or before the time of permit application.

In either case, if a project is abandoned, as defined in the Building-Development Ordinance, the Department will calculate the cost of Plan Review, based on the actual discipline hours expended on the related project review, at a rate of \$145 per discipline hour. The Plan Review cost will be subtracted from the original permit fee amount and the owner will receive a credit or refund for the balance.

1b1. CTAC Abandoned Projects

If CTAC projects are abandoned, the Department will calculate the cost of Plan Review, based on the actual discipline hours expended on the related project review, and charge the applicants account accordingly, or issue an invoice for same. This charge shall not exceed the cost of the original permit fee.

- 1c.** For residential projects where the owner serves as the contractor, with a total construction permit value of less than \$40,000 refer to Section II, Part D, item 49.1 of this Fee Ordinance for the plan review charges."

Program Scope:

Any project will be allowed two reviews within the basic permit fee structure. (Herein, a "project" is defined as any scope of work requiring Plan Review for a permit or group of permits to be issued.)

- Exception 1: Sheets revised in total after the first review or re-issued will be subject to a re-review fee as described below.
- Exception 2: Revisions to approved plans after the permit is issued will be subject to a re-review fee as described below.

Any project exceeding two reviews would be subject to re-review fee as described below.

- Reviews will be performed on an hourly basis and payment made as described below.
- An appeal process will be available to professionals or other customers who believe Plan Review turn downs were not justified.

Re-Review Fee:

A fee of \$145/hour per trade hour will be charged on any project for each Plan Review beyond the second review. The Re-Review Fee would be in addition to any permit fee, fast track fee, CFD fee, or other base permit charge. The Re-Review Fee will be paid by the Lead Project Designer prior to permit issuance.

Deposit Requirement:

Upon submittal for the 3rd or subsequent Plan Review, the Department may check the plans to

estimate the required scope of the review and, at its discretion, require a deposit from the Lead Project Designer based on the estimated hours for the review. Final cost of the re-review will be based on the actual hours expended, with any difference being charged or credited to the Lead Project Designer accordingly.

Definition:

Where the term “Lead Project Designer” is used, it refers to the following:

- 1) The seal holding architect on a project shall be responsible for all discipline re-reviews required and all related re-review fees.
- 2) If the project has no architect, the seal holding engineer with the greatest construction value shall be responsible for all disciplines re-reviews required and all related re-review fees.
- 3) If a project has no architect or engineer, the owner’s contractor shall be responsible for all discipline re-reviews required and all related re-review fees.

Appeals Process:

Where disagreements occur on code interpretations, impacting a project’s review status, an appeal will be available. Appeals will be directed to the Commercial Permits Code Enforcement Manager, who, when necessary, will consult the Code Administrator of the issue/discipline in question.

Appeals may only be submitted in writing, with all relevant information provided. Appeals must be submitted within 10 working days of the review rejection date. An appeal decision will be made within 10 working days of receiving the written appeal.

The new re-inspection schedule will be applied to all projects, large and small. The primary responsibility, or conduit, for charges and credits will be as follows:

- Whoever applies for and pays for the permit will receive any fee adjustments at issuance of CO. These contractors will be responsible for the project inspection failure rate of all sub-contractors working on the project.
- For projects with multiple trades but no general contractor, a lead contractor, responsible for all subcontractors' code defect rates and any fee adjustment, will be assigned from the attached Small Project Lead Contractor Schedule.
- On Commercial projects with multi-primes, where some work is beyond control of the permit applicant, the general contractor and other prime contractors will have individual code defect rate responsibility, unless they agree otherwise.
- The reports will be based on code defect performance on the structure (per house, per project, etc.) at the completion of the work (typically the Certificate of Occupancy stage).
- For all other conditions not prescribed herein, the Director will propose responsibility for charges and credits after consulting with the Code Compliance Task Force.

The task force proposes the program will begin immediately for the purpose of notification of all project failure rates. The Task Force further proposes the new re-inspection fee schedule go into effect for all permits issued on or after April 1, 2000, assuming all the requisite fee ordinance changes have been approved by the BOCC and the appropriate IST programming is in place.
