Additional Comments

Through my current participation in Leadership Charlotte, I recently visited Mecklenburg County's Land Use & Environmental Services Agency. I was thoroughly impressed and my excitement was evoked to help however I can. As a former federal employee (National Cancer Institute- NCI and the Centers for Disease Control & Prevention- CDC) and current State of North Carolina employee, public service is critically important to me and aligns with my commitment through action. I now call Charlotte home with my wife and two daughters (5 y/o and 2 y/o) and I want to help ensure this thriving community continues to grow into a place that they would want to call home long-term.

Additional Information

If you are or have ever served on a Mecklenburg County board/commission, please answer yes or no. If yes, please disclose the Board and term-end date.

No

Why are you interested in serving on the board(s) to which you are applying?

Public service is a core element of my personal and professional identity. Board service has become a non-work element of giving back for more than a decade in several different states (Missouri, Michigan, Ohio, and now North Carolina). Stormwater management is important to both protecting our environment, reducing pollution, preserving nature, and reinforcing industry (agriculture and development). I think my unique perspective and highly inquisitive nature can help me learn quickly and then actively contribute to Mecklenburg County's sustainability efforts.

Have you attended a meeting of the advisory board(s) to which you are applying?
