Waste Management Advisory Board

Letter of Recommendation

MECKLENBURG COUNTY
Land Use and Environmental Services Agency
Solid Waste

TO: Kristine M. Smith

FROM: Jeffrey Smithberger, Solid Waste Director

DATE: May 1, 2024

SUBJECT: Waste Management Advisory Board (WMAB) Membership

The WMAB will have a total of 5 vacancies at the end of April 2024.

Mecklenburg County Solid Waste would like to make the following recommendations for membership to the WMAB.

We propose the following members be appointed for the vacancies on the WMAB and **have all terms for those listed below begin June 1, 2024.**

We are hopeful these can go to the BOCC Meeting of May 21, 2024, for consideration and recommendation:

- 1) **Recommend for appointment: Mr. Henry Alison;** Mr. Alison has a significant amount of solid waste related experience and is a Mecklenburg County resident. Mr. Alison had worked with the County's Solid Waste program for more than a decade and he has been retired from county service for more than one-year. His past solid waste experience would be good for an advisory board that has minimal practical experience, and his presence could work to inform other members.
- 2) **Recommend for appointment: Ms. Jennifer Peltz;** Ms. Peltz represents District 4 which is an area that we seek representation. Ms. Peltz has been a Mecklenburg County resident for more than a decade and describes wanting to help eliminate plastic from our waste stream.
- 3) **Recommend for appointment: Ms. Deborah Butler;** Ms. Butler is interested in the WMAB to work to "future proof" operations and is a forward thinker. Ms. Butler also meets the demographic desire for equity and inclusion for the WMAB.

- 4) **Recommend for appointment: Ms. Suzette McHugh;** Ms. McHugh represents District 5, which is an area that the WMAB seeks representation. Ms. McHugh also has deep experience working with textile recycling and reuse and has been active meeting with our program and discussing community recycling.
- 5) **Recommend for appointment: Mr. Chris Brown;** Mr. Brown's term on the WMAB ended on April 30, 2024. The Bylaws state he may take a 30-day break and then be reappointed by the BOCC. Mr. Brown is currently the Chair of the WMAB. It is critical that he remain in that role for one additional year to allow the transition of the new members on the WMAB. Recently, three other members were added to the WMAB, and these four new proposed members will bring the numbers of "very new" members to seven of 12. Noting that the Vice Chair also termed out on April 30, 2024, and Mr. Brown will be instrumental in working with a new Vice Chair to assume his role when he would transition off in June 2025 with this arrangement.

Please let me know if you have any questions.

Why are you interested in serving on the board(s) to which you are applying?

Hello, I'm interested in supporting my community. I'd also like to know how solid waste gets handled. I'm guessing it's already handled in an environmentally friendly way, however, it would be great to be able to support the County's mission to future-proof its operations. Also, I forgot to mention that I have been serving as a poll worker for the last several elections. It's been a great experience and I'm looking forward to working again in this year's elections. Many thanks in advance for your consideration. Regards, DB

Project Experience

Columbus Bioenergy Project, Columbus, Ohio

Mixing and Withdrawal Design Lead. Managed a team of junior engineers to deliver the mixing and withdrawal design for a six-million-gallon anaerobic digester expansion. Evaluated multiple mixing and pumping technologies, overflow, and drainage. Calculated minimum digester waffle bottom cone slope using novel grit scouring method. Responsible for hydraulic calculations, design drawings, and specifications.

RNG Evaluation and Conceptual Design, Iowa City, Iowa

Biogas Upgrading Lead. Evaluated the net present value of three types of digester gas upgrading systems for a municipal digester gas reuse project. Analyzed existing digester capacity. Modeled gas production increase. Determined the optimal system for renewable natural gas upgrading from the addition of high-strength waste. Determined pipeline gas quality requirements.

Lander St Facility Digester Gas Rehabilitation Project – 60% Design, Boise, Idaho

Hydronic Loop Design Lead. Designed the integration of two new 3,000 MBH boilers into an existing plant hot water loop system while minimizing downtime. Designed a new enclosed flare waste gas burner system including underground condensate management. Assisted with integration of controls into existing plant SCADA.

East Valley Cattle Renewable Natural Gas, Cassia County, Idaho

Process Design Lead – Manure Headworks. Responsible for successful delivery of manure receiving, sand separation, screening, and manure thickening processes for an 8.4 MGD, 8-digester dairy RNG project. Design included civil, instrumentation, process mechanical, and structural components.

DeSaegher Energy Dairy Renewable Natural Gas, Middleton, Michigan

Process Engineer. Assisted in the process mechanical design of a dual digester dairy RNG facility. Responsible for managing instrumentation and process mechanical disciplines. Designed manure receiving and condensate removal systems.

PFAS Surface Water Treatment, Littleton, Massachusetts

Design Manager. Designed a pump and treat system for PFAS and sediment removal at quarry settling pond adjacent to wetlands. Pilot tested granular activated carbon and resin treatment trains in the field and managed data acquisition and analysis.
