BACKGROUND/JUSTIFICATION:

Public Health is applying for a Youth Mental and Behavioral Health: Near-Term Opportunities to Support North Carolina's Youth grant. This grant opportunity is to expand access to mental and behavioral health services and resources for youth through models that are effective in the short term (1-3 years), and which leverage a trained workforce that goes beyond specialty trained behavioral health care clinical and professional roles. The department will partner with Charlotte-Mecklenburg Schools to support and create trainings for the Handle with Care program and trainers for 83 new Sources of Strengths programs. Public Health is requesting a health educator to serve as the liaison to ensure those children and youth recommended to the programs are receiving behavioral and mental health resources.
