BACKGROUND/JUSTIFICATION:

In November 2019, residents adjacent to the Discovery Place Nature Museum voiced concerns to the Board of County Commissioners and Manager's Office about the renovated facility's impact to the neighborhood once complete. At that time, the project was put on hold in an effort to better understand the concerns of the residents and ensure that the project design addressed those concerns. Since that time, several meetings have been held with residents. Staff will share an update based on feedback we have received and the updated project site plan that addresses the residents' concerns.
